Fiat Multiplay Concept

12/10/2026

In the Multiplay, Fiat blends the 1956 Multipla, the 1999 revival and pick-up DNA: about 4.5 m long, three rows for six seats and a transformable roofline. The rear slides forward to open the bed for bikes or camping gear, and at the push of a button it turns from a seven-seat people carrier into a double-cab pick-up.

The interior is reconfigurable, with seats such as the "Petsenger" for pets and the "Sunseat" lounger, wrapped in **bright pastel colours and simple forms**. Fiat has not confirmed a timeline or how much of this would reach production.

Seen from the decoration side, the Multiplay is the cheerful end of the "less is more" trend Dacia opened with the Hipster: mass-coloured plastic, few and large parts, and personalisation entrusted to colour and accessories rather than chrome.
