Citroën DS5 at Shangai 2011

23/06/2011

"The CITROËN DS5 White Pearl is a true artistic creation, an automotive sculpture cloaked in a silver robe with pearlescent reflections. The elegance of the body styling is underlined by an understated ballet of grey chrome detailing and dark lacquer touches. The sabre of the DS5 Pearl was crafted like a hand-guilloched jewel. As the sabre tapers the DS motif fades, enhancing the splendour of the chrome as it approaches the tip of the headlamp. The DS5 White Pearl also sports specially designed, DS-stamped 20-inch wheels, with polished surfaces and lacquered recesses for an intangible sense of depth."
