2008 Mondial de l'automobile review

06/10/2011

Audi has unveiled the **A1 Sportback concept**, which follows in the footsteps of the A1 Metroproject Quattro Concept that was unveiled in Tokyo last year

BMW has released the 7-series Active-Hybrid Concept. Described as a mild hybrid, the 7-Series uses a small electric motor integrated in the transmission housing. Electrical energy is generated through Brake Energy Regeneration system and stored in a high-performance lithium-ion battery located in the luggage compartment.

Citroën has unveiled the **Hypnos**, a crossover concept of van, sedan and SUV, and the GT concept.
