La nouvelle Peugeot 3008/5008

18/02/2014

The French brand is tackling the minivan segment in 2014 with its reworked Peugeot 3008 Crossover. Together with it comes a more modern and technological 5008, which is committed to a daring design with interiors with exclusive finishes: design handles, a black lacquered tilted central console and chrome aerators. Here, the new parts manufactured by Maier are the black centre consoles and frontages decorated with lines.
