Maier attends 2013 SUR/FIN tradeshow

15/01/2014

A Maier delegation attended the 2013 SUR/FIN tradeshow held in mid-June in Rosemont, Illinois (US). The 95th tradeshow was organised by the National Association for Surface Finishing (NASF), the largest professional association in the surface finishing industry, a key segment in the global manufacturing chain.

The tradeshow has a clear mission: to promote a sustainable future for the surface finishing and decorative coverings industry, through over 70 conferences and attendance by 170 exhibitors. These exhibitors presented their products, equipment, systems and services of strategic interest to the finishing industry, making it the largest event in the world where qualified suppliers in this field can meet under the same roof.
